---	---

Azenta/GENEWIZ is pleased to offer you this custom quotation. As a leading global service partner, we are proud to help advance your research and development through our high quality results, stringent Quality system, expert Project Management, and flexible service options to save you time and resources.

I. Estimated Price

	Service	Unit Cost	Quantity	Itemized Subtotal	Service Subtotal
1	Gene synthesis, < 1.5 kb	€0.26	1295	€336.70	€246.05
	Gene synthesis, < 1.5 kb->Discount	-	-	€-90.65	
	Standard cloning with synthesis, pUC-GW-Kan	-	1	-	
	Mini-scale DNA sample, bundled	-	1	-	
Order Subtotal:					€246.05
Shipping/Handling:					€35.00
Tax:					€0.00
Estimated Total for Project:					€281.05

New customer promotional pricing applied (single use only).

Please review all sequences and the detailed service description, located [here](#).

II Estimated Processing Time

8-10 business days.

Processing time for synthesis of typical sequences (non-repetitive, non-toxic) is estimated at 8-10 business days for sequences under 1.5 kb, 10-12 business days up to 3 kb, and 15-25 business days for sequences up to 6 kb. Difficult template synthesis may vary widely depending on sequence complexity. Projects involving larger than 10kb or unstable vectors may add an additional 5-10 business days to the project. Project cancellation after the purchase will incur cancellation fees up to full cost of the order. Contact GS@azenta.com to request additional information for specific order. Additional 5-7 business days for shipping and handling will be required.

Individual products within larger orders may complete at different times. Contact GS@azenta.com to request that split shipping be added to your order (additional charges apply).

III. How to Start Your Order

1. Provide valid Purchase Order or charging instructions (checkout through your online Azenta/GENEWIZ account, email GS@azenta.com or call +49 341 520 122 – 41)

IV. Service Description

1. Standard synthesis of PCDH9 CTF hu, with sequence verification and standard cloning into pUC-GW-Kan; delivered as a mini-scale DNA sample.

Notes:

The pUC-GW vector sequence has recently been changed. Please click [pUC-GW Plasmid Map \(.pdf\)](#); [pUC-GW-Kan \(.gb\)](#); [pUC-GW-Amp \(.gb\)](#) for the updated sequence.

To accept this Quotation, please see the [How to Start Your Order](#) section.

V. Sequence Analysis

1. PCDH9 CTF hu: A 368 T 276 C 353 G 298 | GC%: 50.27% | Length: 1295

VI. General Terms and Conditions

This quotation is exclusive of any applicable customs duties. Applicable taxes and freight in this quotation are estimated. Any order issued in response to this quotation is governed solely by the below referenced terms and conditions or, where applicable, a contract signed by Azenta/GENEWIZ and the customer. No other terms are accepted by Azenta/GENEWIZ.

*This quotation may be revoked at any time until Azenta/GENEWIZ has provided a sales order confirmation.

Terms and conditions can be found at: <https://www.genewiz.com/en/Public/Company/Policies/Terms-Conditions>
